

## OA Knee Bracing

### Breg FUSION Women's OA

FUSION OA is the ideal brace for female patients suffering from osteoarthritis. It provides optimal medial compartment off-loading for unicompartmental osteoarthritis, and features an adjustable hinge technology, which provides an effective valgus load to the knee. This hinge utilizes a telescoping condyle with BREG's exclusive user-friendly thumbwheel dial design that allows patients to easily adjust the level of pain relief without using a tool. FUSION Women's OA also incorporates an offset gauge that clearly displays the amount of load applied in half-millimeter increments. FUSION Women's OA provides the necessary support for ACL, PCL and collateral ligament protection. And, because it features BREG's revolutionary ProForm technology, patients always get an intimate, contoured fit. Best of all, FUSION Women's OA not only relieves pain but may also slow osteoarthritic deterioration.

**Product Features and Benefits**

ProForm technology, provides a contoured fit and superior protection. Lightweight. Contoured frame padding that conforms to the leg. Easily adjustable/removable straps ensure a proper fit. PivotPoint Strap Tabs allow for superior comfort during motion.

**Indications:** unicompartmental OA (mild to severe) – **medial compartment only**. Chondral defect procedures. Meniscus procedures.

**Order Information- Refer to Size information Below**

109XX	FUSION Women's OA, Wrinklecoat OTS, Right, XS-XXL

### Breg FUSION XT OA

FUSION XT OA is designed for OA patients who participate in high-impact activities. FUSION XT OA provides optimal medial compartment off-loading for unicompartmental osteoarthritis. This brace features a high-strength frame that utilizes BREG's standard adjustable hinge design for maximum durability. Additionally, FUSION OA provides the necessary support for ACL, PCL and collateral ligament protection. Patients always get an intimate, contoured fit. It not only relieves pain but may also slow osteoarthritic deterioration.

**Product Features and Benefits**

ProForm technology, provides a contoured fit and superior protection. Lightweight. Contoured frame padding that conforms to the leg. Straps ensure a proper fit. PivotPoint Strap Tabs allow for superior comfort during motion.

**Indications:** unicompartmental OA (mild to severe) – **medial compartment only**. Chondral defect procedures. Meniscus

## OA Knee Bracing

### Breg SOLUS

The Solus knee brace provides maximum relief for medial compartmental osteoarthritis (OA) pain. Designed for activities of daily living, Solus delivers effective load dispersion to relieve the symptoms of OA, while its gel condyle pad, contoured straps, and soft, cushioned frame pads provide all-day comfort, support and suspension.

#### Product Features and Benefits

Sleek Frame Design. Load Read-Out Gauge. Convenient Thumbwheel Dial. Soft, Contoured Frame Pads. PivotPoint Strap Tabs.  
**Indications:** Mild to moderate medial compartment OA without instability. Abnormal limb contour including varus/valgus deformity (with medial compartment OA). Disproportionate leg shape.

### Breg X2K CounterForce Plus

The X2K CounterForce Plus is proven to provide exceptional control of varus/valgus forces associated with unicompartmental osteoarthritis of the knee. Each custom brace frame incorporates a varus or valgus load, along with an adjustable hinge that allows the condyle pad to deliver an additional 12 mm of travel to further alleviate the symptoms of OA.

#### Product Features and Benefits

Enhanced adjustable hinge – 12 mm of travel (twice the loading capabilities as the standard adjustable hinge). Retractable opposing hinge feature. Gel comfort condyle pads. Siliconized strap padding. Over-sized tibial frame pad.

**Indications:** Unicompartmental OA (mild to severe). Chondral defect procedures. Meniscus procedures

#### Order Information

Part #	Description
20003	X2K Counterforce Plus Custom, Powdercoat

### DonJoy OA Lite

**Ideal Application**

The OA Lite is ideally suited for adult patients with mild unicompartmental osteoarthritis who engage in activities of daily living or have sedentary lifestyles.

**Features and Benefits**

- Pre-loaded hinge (up to 6° of correction) incorporates flexion and extension control
- Single upright is malleable to allow for further load adjustments and features thigh and calf paddles to mitigate hinge rotation and ensure consistent off-loading through the range of motion
- Patella donut provides full- circumference stabilization
- Arthritis friendly with reinforced strap ends, thigh grip, and pull loops
- Arthritis friendly with reinforced strap ends, thigh grip, and pull loops
- Wraparound thigh and sleeve calf design facilitates ease of application/removal
- Breath-O-Prene fabric eliminates skin irritation
- Low profile (0.050" thick), lightweight, MicroMesh fabric
- Floam condyle pad with 100% memory
