

## Tendonitis and Straps

### Procare Tennis Elbow Support w/ FLOAM

Combines neoprene band with FLOAM bladder for compression over tendon insert point. FLOAM has no memory, which prohibits pressure from being displaced to bony prominences. Ideal for Medial epicondylitis (golfer's elbow) and Lateral epicondylitis (Tennis elbow).

Part #	Circumference	Size
79-81183	6-8"	S
79-81185	8-11"	M
79-81187	11-14"	L
79-81188	14-16"	XL

### Procare Tennis Sleeve

Combines soothing warmth of neoprene elbow sleeve with a counterforce strap that restricts full extension of muscles and tendons. Contact closure strap with D-ring provides exact fit and adjustment. Ideal for Medial epicondylitis (Golfer's elbow) and Lateral epicondylitis (Tennis elbow). 8" length.

Part #	Circumference	Size
79-82322	8-9"	XS
79-82323	9-10"	S
79-82325	10-12"	M
79-82327	12-14"	L
79-82328	14-16"	XL

### M-Brace Tennis Elbow Splint

The **M Brace Tennis Elbow Splint** uses a specialized contoured compression pad with an easy to use tension strap to focus compression over the forearm tendons. This model is made from 100% cotton velour for non allergic/dermatitis use. It is designed to fit most forearms and is available in two sizes. The tennis elbow splint has a low profile design and provides orthopedic quality effectiveness. Fits right and left sides. Two available sizes. Extremely low profile and fits underneath any shirt. Does not migrate or rotate. Anatomically shaped pads. Perfect for people with skin sensitivities.

### BandIT Tennis Elbow Strap

The ProBand BandIT is the only medically designed device which works with the human anatomy to aid in the relief of Carpal Tunnel Syndrome and Tennis Elbow pain without cutting off circulation, hampering movement or causing uncomfortable swelling. The BandIT utilizes Anatomically Focused Dynamic Compression® to turn the natural action of the forearm into a natural pump.

It is highly effective in relieving pain commonly associated with Carpal Tunnel Syndrome and Tendonitis. It is a superior aid for tennis, golf, weightlifting, bowling, racquetball and activities such as the use of keyboards, which result in RSIs.

Part #: Bandit

## Tendonitis and Straps

### Universal Surround Elbow w/ FLOAM

Comfortable neoprene strap features FLOAM bladder and wraparound universal design with loop-lock closure. FLOAM is intended to reduce impact stress to the epicondyle and helps dissipate muscle force over a greater area. Durable to withstand wear during exercise, sporting activities, and repetitive work conditions. Ideal for bursitis, sprains, strains, tendonitis, Medial epicondylitis (Golfer's elbow) and Lateral epicondylitis (Tennis elbow).

Part #	Circumference	Size
79-82570	up to 18"	U

### Aircast Pnuematic Armband

Innovative Aircast aircell technology enables the Pneumatic Armband to focus compression where it counts! Using a single pre-inflated aircell, the Armband concentrates compression directly on the extensor muscle, not around the arm, for more support and less constriction. Designed for comfort and versatility, the Armband is designed to conform to the arm's tapered contour and comfortably cushions the sensitive injured muscle.

Size	Description	Circumference
05A	Pnuematic Armband, Beige	8"-14"
05A-B	Pnuematic Armband, Black	8-14"

### Hely & Weber Cubital Comfort Brace

Indicated for Cubital Tunnel Syndrome. Two aluminum malleable stays positioned inside the elbow prevent excessive elbow flexion. Two stockinette arm bands to easily position the brace on the arm. Two hook & loop straps secure the brace.
