

Thigh Supports

M-Brace Thigh Wrap

The **M Brace Thigh Wrap** has a circular compression pad and adjustable straps to adjust the degree of support on the entire thigh. This low profile, neoprene-free model targets pressure right over the involved area. The thigh wrap is made of 100% cotton velour for comfort and allows for easy heat transfer away from the body. The natural material helps promote proper hygiene. The Thigh Wrap is perfect for pulled muscles and is washable.

Features and Benefits

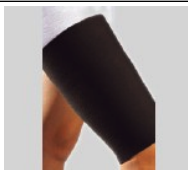

One size fits most. Fits under any pants. Extremely low profile; lightweight. Does not migrate or rotate. Easily adjustable in size and position with adjustable strapping mechanism. 100% cotton velour. Adjustable cushion for localized compression is ideal for reducing swelling to the area and is removable. No allergies or dermatitis. Washable.

Indications: Muscle spasms. Thigh strains/muscle tears. Hematoma formation.
