Bio Sole Sport Orthotics

A 3/16" orthotic, designed for shoes with removable inserts or shoes with extra room. A bladder construction, filled with polyurethane foam and viscoelastic gel, shapes dynamically to the contours of the foot without bottoming out.

The **BIOHOTIC** comes pre-cut to shoe sizes and comprises a special foaming resin, encapsulated between the bottom shell and top cover. The molding process is fast and simple, no equipment or training necessary.

Orthotics

USA Rigid Insole

Provide a greater level of arch support, absorb shock, reduce friction and improve overall comfort. Sold in pairs.

Size	Part #	Men's Shoe	Women's Shoe
